

PLAIN TALK TO MAYOR BOODY. FOREIGN NEWS OF THE DAY.

Underwriters Score Brooklyn's Fire Department.

Russian Generals Say War with Germany Would Be Popular.

Committee May Be Appointed to Investigate Their Charges.

Bold Speech by a Hungarian Patriot — The King Rebuked.

Major Board of Brooklyn, who recently asked the Fire Association of the Board of Underwriters to specify the reasons for which the Brooklyn Fire Department was charged with inefficiency and insurance rates advanced 25 per cent., was waited upon this morning by the Committee of the Tariff Association, composed of J. H. Washburn, of the Home Insurance Company; Marshall S. Briggs, of the Williamsburg Insurance Company; George M. Cort, of the Royal; E. H. Kennedy, President of the New York Board of Underwriters; Dennis Lockwood, President of the Tariff Association; Corporation Counsel Jenks, Fire Chief Nevins, Assistant Chief Commissioner Ennis and City Works Commissioner Adams were also present.

Mr. Washburn said, in reply to a brief speech by the Mayor, that the companies most other rates in Brooklyn or return from the city. "Our own Company, the Home," said Mr. Washburn, "recently returned \$10,000 in premiums and saved \$40,000 thereby."

While Brooklyn covers as much territory as New York, it has only one-half the fire facilities, said Mr. Washburn. There were few fire-boxes, and the old key system, which entails delays, was used.

A small department under perfect discipline, he continued, "is more efficient than a larger department not well disciplined. You men, it is reported and generally believed, are not well disciplined. They have been accused with gaming in engine-houses, loitering on streets, going by two and three into saloons, and even with having dogs in saloons so that they could beat there."

The speaker cited another evidence of lack of discipline in the case of a man who recently was bound guilty of assaulting a woman and was reduced in position instead of being discharged. "I have also heard of instances of cases where men have been laid up, and boasting of their political pull, which would save them from being discharged."

"The Fire Commissioner," continued Mr. Washburn, "was appointed for political reasons and not on account of any particular fit or experience. I admit that your chief interest is to get rid of me, but I am too old and too rich to make an efficient chief."

"A man who enjoys his own right and the fire-truck has not enough time to perform the duties of a fire chief. Mr. Nevins has earned his spurs and has a right to rest on his laurels."

"There are also," said Mr. Washburn, "ugly rumors about the purchases for the Fire Department and ugly stories about the employment of men for political reasons." "It is true, however, as we all know, we know of no reason why Brooklyn buildings should be more combustible than in New York, but the fact remains that in New York they burn down while in Brooklyn they let them burn."

Mr. Jenks asked the committee if the trouble with increased fire losses in Brooklyn reflected on the city and the same in his home company. Learned Brooklyn was to have a new board of firemen but too rich to make an efficient chief.

"A man who enjoys his own right and the fire-truck has not enough time to perform the duties of a fire chief. Mr. Nevins has earned his spurs and has a right to rest on his laurels."

"The speaker ended with the understanding that the charges are to be made in writing. Mayor Boody will then appoint a committee to co-operate with the underwriters in making an investigation.
